INTRODUCTION

Colin Parker Masonry Ltd

has been at the forefront of the industry for over 25 years having established a reputation for design, quality and service and is regarded as one of the UK's leading manufacturers and trade suppliers of fireplaces, granite kitchen worktops, memorials and other associated marble products.

Based in South Lincolnshire, our 3½ acre site and 50,000 sq ft factory and warehousing is ideally situated to serve the whole of the UK, via a network of reputable retailers, major house builders, councils, hoteliers, and architects.

We import directly from counties such as Italy, Portugal, Spain, Greece and Turkey, and as far away as Africa in the Middle East, India and China in the Far East. Selecting only the finest quality materials, giving you a superb choice of over 100 different types and colours to choose from.

Using the very latest computerised CNC machinery, combined with traditional hand finishing, we are proud to showcase this catalogue of Classic, Traditional, Contemporary and Unique fireplace designs.

Each fireplace is made specifically to your order. To ensure it fits your room perfectly we are able to offer all the designs in this catalogue with the flexibility of a made to measure service, so the limitations of our designs and your imagination are endless.

Iconic

The look of a modern stove but with the ease of a modern gas log effect fire.

Shown in Genuine Absoluto Black Granite.

Appliance featured:- Gazco Riva 2 500

Granite Worktops

Transform your kitchen and bathroom using natural granite surfaces, giving your home a sense of beauty and flair.

Giallo Veneziano

Granite is a very hard stone because it was formed millions of years ago as hot liquid stone. The molecules of Granite are not uniform and are not layered as in sedimentary rocks like limestone or slate.

Because granite is so hard, people often use granite for worktops where the surface is required to be hard wearing such as in kitchens.

Giallo Veneziano is a coarse-grained granite of an ochre-yellow to golden brown colour and is of Norwegian origin.

Absoluto

Nero Absoluto granite - (also known as Zimbabwe black and Absolute black granite) has a black background with a very light scattering of dark grey flecks. Nero Absoluto granite is considered to be one of the purest black granites.

Star Galaxy

One of the most popular premium granites with its dense black background and light reflecting, bright gold colour specks. The gold specks are due to the presence of ferrous rich Bronzite. Star Galaxy is of Indian origin.

Granite & Marble are ideally suited for bathrooms, cloak rooms and en-suites, adding a touch of class and value to your home.

Image shows a floor to ceiling in Star Galaxy inlaid borders of Civic White natural marble, Bath surround and vanity top in Star Galaxy and Civic White marble flooring

Modeco Designs

MagmaFire™ provides a real flame experience that you can start enjoying anywhere, immediately. Select your carbon-neutral bioethanol fire in the hand crafted natural stone of your choice. Quality is at the heart of the range.

MagmaFire™ offers tabletop fires, portable free standing fires as well as the newly released Bio-lintel design which fits into a standard opening for that more traditional mantelpiece. Customisation comes as standard.

Magma™ Elegance

A strikingly elegant fireplace made from beautiful natural stone and stainless steel that lavishes design appeal on any décor. Perfect for smaller, more compact spaces, both residential and commercial. The clean lines, hand crafted by our master craftsmen, frame the captivating flame and further add ambience and distinction to living areas. Its unique flexibility and portability enable the Elegance to be easily positioned in many different settings. The Elegance includes the Magma™ BioBox – an efficient 750ml burner that will take the chill off for up to 3 hours.

Elegance is fuelled by clean-burning, environmentally friendly bioethanol and provides heating capacity of

up to 3 Kw/H - equivalent to a standard gas, wood or electric fire.

Includes the Magma™ BioBox with a 750ml stainless steel tank and our unique shutter design to regulate the size of the flame.

Enjoy up to 180 minutes burn time.

Specifications: Width: 370mm Height: 60mm Length: 370mm

MAGMA™ TERRACE

Versatile and portable the Terrace creates a unique ambience in any living area.

Sit back and enjoy the mesmerising flame in seconds. The Terrace adds a touch of class and impressive heat performance. Relocate with ease. With no need for a utility connection, Terrace is fully portable and can be moved on a whim or left in a permanent location.

Creating a compelling focal point for any room has never been this easy.

Provides heating capacity of up to 3 Kw/H - equivalent to a standard gas, wood or electric fire, but with no energy loss through a flue, bioethanol fires are an efficient alternative to compliment modern living.

Includes the Magma™ BioBox with a 750ml stainless steel tank and our unique shutter design to regulate the size of the flame.

Enjoy up to 180 minute burn time.

Size: Width: 370mm Height: 60mm Length: 370mm

MANY THANKS TO:-

Time out opened its doors to the public in May 2005. It was the brain child of Shaun Cross, whom had dreamed of opening an interior shop for many years. In doing so the shop has grown into a thriving business, selling furniture, pictures, lamps and all other aspects to make your home come to life.
